Choosing the right door pivots for your project is important. There are many options, so you must carefully select the best Pivot which adequately controls the door and complies with local and federal building regulations. FHC is here to help you make the right decision with some key insight into door pivots.

DOOR PIVOT TYPES:

FHC Offset Pivots

The top & bottom offset pivot door is the most common & economical swing door for any application. Door comes supplied and prepped for offset pivot cut outs.

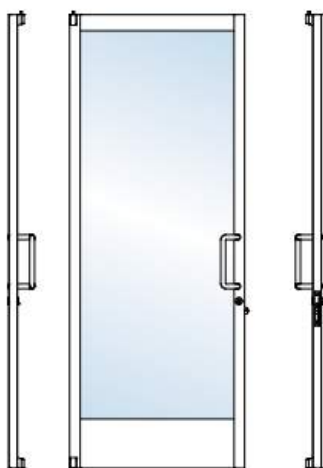

FHC Continuous Hinges

Mortised continuous hinge is the most reliable hinge for heavy traffic areas. The continuous hinge comes installed on the door ready to be placed at desired location of the door jamb.

FHC Butt Hinges

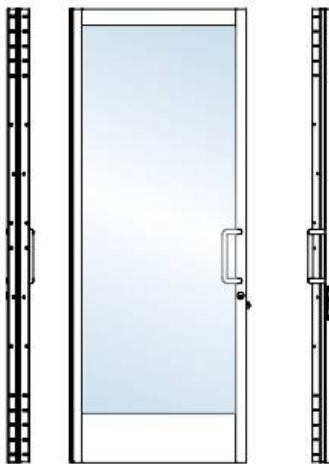

Three mortised ball bearing butt hinges come standard for all doors. A reinforced plate is installed providing a secure mounting plate for hinges.
